March 2011

## Greetings to All, from the desk of your Governor

February began with a cold start. I don't ever remember sub-freezing temperatures as we experienced during the first week of the month. Fortunately, we survived this cold spell but not without damage to some of our tribal buildings. I know some homes sustained water damage as a result of frozen water lines as well. The weather forced us to shut down tribal operations, with the exception of those programs/departments responsible for answering and responding to emergency calls. The Pueblo responded to over 100 emergency calls and as you can imagine our personnel couldn't be at all places at once. We therefore appreciated your patience.

Hats off to both Lt. Governors who handled this situation with professionalism in making the right decisions while I was away. They acted in good faith for the good and safety of all concerned. In addition, thank you to Mr. Vernon Abeita who acted as the incident commander, and all the staff of the Isleta Housing Department, Public Works, Natural Resources, Recreation Department, Isleta Police Department, even the Hard Rock Hotel and Casino for their help in lending a hand with their equipment and manpower. And, also thank you to all the employees who worked long hours and in cold temperatures to clean, fix, repair, replace, all damaged equipment and materials to insure buildings, homes, and other facilities were put back in operational condition. We had at least nine buildings that sustained water damage including the Health Clinic, Dept of Education, Social Services, Treasury, Procurement, M.I.S. and others. The gymnasium was set up as an emergency and temporary shelter with food and water provided. Thank you to all the responders. You showed the Pueblo we are more than capable to handle these types' of emergency situations when Mother Nature visits us. In the end, we all realize the power of Mother Nature and thankfully, we survived. For your information, the Social Services department has been temporarily relocated to the old elementary school while their building is undergoing repairs. You may reach them at the same number 869-2772.

In other news, the State Legislature continues to be in session. Of particular interest is House Bill (HB) 264. This bill was intended to repeal the tax exemption on cigarette sales. It attempted to provide for cigarette excise tax to be paid on sales to non-tribal members by cigarette vendors on tribal lands. Luckily, this bill was tabled at the request of the Clinton D. Harden, the sponsor. This does not mean it's dead, but could be reintroduced in the future. It will be quite lengthy if I address bills individually, so please review the list of bills in the following pages. With the aid of our lobbying firm, we track and monitor each bill's progress. We act on those specifically related to our Pueblo and provide support to others that are common to all our Pueblos, Tribes, and Nations. If you have any questions on any of these bills, please feel free to call the office and we can provide specific information.

We have proceeded to hire a contractor to begin repairs of the irrigation ditches before water is released. We decided, in coordination with the mayordomos, that repairs will only be done to the most severe trouble spots identified by the mayordomos. After the irrigation season, the contractor will continue repair work for the entire length of all three ditch associations.

The Pueblo has submitted a request for funding to the Rio Metro Transit District titled Request For Funding Isleta Pueblo Quiet Zone and Crossing Consolidation. We have been unofficially informed that the project has been funded and approved for FY 2012 and will begin in October, 2011. This project will result in a "quiet zone" in the Pueblo proper, with improvement of roadway geometrics in the vicinity of the railroad crossings. The estimated cost is \$1.7 million. The project resulted from numerous meetings and discussions with our office and the Tribal Council. Many thanks to our Tribal Planner as well, Mr. Simon Shima.

Lastly, our office and the Tribal Council (in a meeting held in late January) developed a list of priorities to undertake during this

term. Of importance to us are: amending our Tribal Constitution; addressing issues at the Isleta Diversion Dam and water rights; enforcement of the Residence Ordinance (pending approval by BIA); clean up and expansion of the cemetery; begin design and construction of the new Elders Center; seeking broadband service; and maybe the thought of relocating the Palace West to the south end of the reservation. With respect to amending the constitution, the Pueblo of Isleta will announce to the public if anyone would be interested in serving as a committee member and will ask that you submit your resume for consideration. In addition, we will create a Water Task Force, again we will be requesting for volunteers, which will be responsible to provide recommendations on any issues related to water to the tribal government. Be on the look out for the advertisement.

I can't believe how quickly this month has gone by. My apologies for not being able to provide more information at this writing, but between meetings with the All Indian Pueblo Council, the Indian Pueblo Federal Development Corporation and just finishing with our traditional dances, the time just flew.

We here at tribal administration, extend our sincere appreciation to all of you and pray to our Creator for your good health, happiness, and good fortune to all. Let our community be instilled with pride. All of us can make this happen.

## Newsletter Changes

As was reported in the February Newsletter, this will be the last month that the newsletter will be mailed to tribal members. We will make every attempt to distribute the newsletter to various sites throughout the Pueblo, including setting up newspaper stalls at different sites throughout the Pueblo. These sites at this time have not yet been determined. Newsletters will be available for pick-up at the health clinic, elderly center, recreation centers, Governor's office, Department of Education, Headstart, community center and at the Tribal Library. Also, through the efforts of Nate Lujan, Library Director, and Norman Lucero, from the MIS Department, the newsletter is available on-line. Even past issues are available. See the Tribal Library article in this issue for information on how to access the Newsletter.

We have received but two suggestions for a new name and new design for the Tribal newsletter. We're still taking applications...and...we will extend our waiting period till the end of March 2011.

Should you have any questions or comments concerning the newsletter, please call Ulysses Abeita at 307-1582 or e-mail to [uabeita@yahoo.com](mailto:uabeita@yahoo.com).

## Pueblo of Isleta Veterans' Association

The next meeting of the Pueblo of Isleta Veterans' Association will be on 16 March 2011 at 6:30 PM.

For your information, we submitted a capital outlay request to the NM State Legislature for construction of our Veterans' project. It is being sponsored by Rep. Alonzo Baldonado and Rep. David Chavez. There is a rumor that there is no money in Santa Fe, and whether we get any money...is a very big maybe...but they know that we are here.

All honorably discharged veterans may join the Association for an annual fee of \$25. Refreshments and snacks will be served...

For any questions, call Ulysses at 307-1582.

<u>HB2</u>	GENERAL APPROPRIATION ACT OF 2011	Henry Kiki Saavedra	Do Pass HAFC 10-7	Yes	Introduced 01/18/2011 ó The governors version of the General Appropriation Act that funds state agencies for FY 2012; reduces current funding levels of certain agencies and increases employees share of retirement contributions; and amends the GAA of 2010. Also includes HB1 appropriations for the Legislature, HB3 appropriations for public and higher education, and HB4 appropriations for transportation.	Monitor and Report. Bill should be on House floor Monday. All 36 Democrats will need to vote yes for the bill to pass.
<u>HB48</u>	CULTURAL PROPERTIES REVIEW COMMITTEE DUTIES	Paul C. Bandy	Tabled in CPAC 3-2	Yes	House Bill 48, prepared for the Government Restructuring Task Force, amends four sections of the Cultural Properties Act (Section 18-6-1 NMSA 1978 et seq.) to the authorize the State Historic Preservation Officer (SHPO), who is director of the Historic Preservation Division in the Department of Cultural Affairs, to make a temporary, emergency classification to list a cultural property on the New Mexico Register of Cultural Properties (State Register). The bill further authorizes the State Archaeologist and the SHPO to issue permits for archaeological investigations. The bill removes these duties and responsibilities from the Cultural Properties Review Committee (CPRC), a governor-appointed board with one statutory member (State Historian), attached administratively to the Historic Preservation Division. The bill also cleans up statutory language with a few wording changes. Currently, the CPRC, with the concurrence of the State Archaeologist and the SHPO, issues permits for archaeological investigations, including permits to survey, excavate or make collections from archaeological sites on state land; excavation permits for archaeological sites on private land when using mechanical equipment; and permits authorizing the excavation of unmarked human burials on state or private land. In addition the CPRC currently is the sole entity with authority to make an emergency classification to list a cultural property on the New Mexico Register of Cultural Properties (State Register) on a temporary basis not to exceed one year. It does so at an open meeting and takes testimony prior to making a decision on the emergency listing.	Oppose, dead.
<u>HB81</u>	NO LAND GRANTS AS STATE LAND	Miguel P. Garcia	Do Pass in CPAC 3-2 DO PASS HJC 2-21-11 House Filor 2-23-11	YES	House Bill 81 proposes to amend Section 49-1-11.1 NMSA 1978 by adding a new subsection which would exempt the common lands owned or controlled by a land grant-merged from consideration or treatment as state land.	Oppose
<u>HB88</u>	EXECUTIVE BRANCH ENTITY SUNSETS	Paul C. Bandy, Lynda M. Lovejoy	Tabled in HHGAC	Yes	House Bill 88 which was endorsed by the government restructuring task force provides for the sunset or expiration of various boards, commissions and other membership entities within the Executive Branch at specified times between 2013 and 2017. The bill also states that the Sunset Act applies to all boards and other membership entities of the Executive Branch, and also requires the LFC to review all such entities not enumerated or designated in the bill during 2011 and 2012 to then make recommendations to the legislature whether to terminate or extend those entities. <b>The bill sunsets the TIF Board, Commission on Indian Affairs, and Indian Education Advisory Council</b>	Oppose unless amended.
<u>HB92</u>	LOTTERY SCHOLARSHIPS FOR TRIBAL COLLEGES	Ray Begaye	Do Pass HEC, 9-0, Pending Action by HAFC	yes	House Bill 92 provides for students attending tribal colleges to receive lottery tuition scholarships under the same criteria as students attending public post secondary institutions and makes technical corrections to existing statute.	Support. Need to work the Senate Majority Leader
					The bill defines "tribal colleges and prescribes eligibility requirements.

<u>HB287</u>	SPECIAL FUEL TAX DEDUCTION ON INDIAN LAND	Sandra D. Jeff	Held at the request of the sponsor	Yes	Provided a deduction for the special fuel excise tax for diesel fuel sold on Indian reservation, Pueblo Grant, or trust land. Estimated cost to the state and local governments is between \$14 and \$17 million.	Monitor; NAPC is concerned that this bill may open up discussion on the tribal gasoline tax exemption. Many feel this is a bad year to try to move this legislation. Representative Jeff may have permanently tabled her bill.
<u>HB288</u>	TEACHERS INCOME TAX DEDUCTION ON INDIAN LAND	Sandra D. Jeff	HTRC 2-25-11 Room 317 1:30 PM	Yes	RELATING TO TAXATION; PROVIDING AN INCOME TAX DEDUCTION FOR TEACHERS WORKING AND LIVING ON INDIAN LAND.	Monitor, possibly support; unlikely to pass.
<u>HB358</u>	CONSERVANCY DISTRICT ELECTIONS REQUIREMENTS	Dennis J. Roch	DP PASS HVEC DO PASS HJC 2-21-11 House Passage 2-24-11	YES	House Bill 358 changes the maximum size of the conservancy district from 140,000 acres to 145,000 acres. It deletes outdated language regarding wives of electors. It also deletes the requirement for the conservancy district secretary to mail out statements showing the number of irrigable acres owned by each landowner in each voting precinct. HB 358 changes the entitlement to vote for district precinct elections to landowners owning irrigable property for at least five months preceding the election, and for at-large director's changes the ownership period from one month to a minimum of two (2) months. It eliminates a provision that allows candidates to run without having a nominating petition if no other person had filed to run within the time prescribed for filing. The bill gives the board of directors the ability to determine compensation of directors providing no director receives an increase during the term they were elected.	Monitor

Monitor; potential compact implications.
<u>HB402</u>	STATUS OF WATER RIGHTS UNDER LEASE Roberto	Robert "Bobby" Gonzales	Do Pass HAWRC 2-21-11	Yes	House Bill 402 proposes to amend § 72-6-3(A) NMSA 1978 to explicitly set forth the existing law that the beneficial use of water pursuant to a state engineer approved lease of valid existing water rights constitutes the continued exercise of the leased water rights and protects those water rights from loss through forfeiture or abandonment. The bill also proposes (p. 2, line 13) to amend § 72-6-3(B) NMSA 1978 to change the word "nonuser" to "nonuse". Section 72-12-7(A) NMSA 1978 would be amended to address the limited instance where the holder of a state engineer permit granting a change in place of use of a previously adjudicated groundwater right desires to place water to beneficial use at a location other than that specified in the permit. In that specific instance the bill would provide that the requirement of beneficial use necessary to establish a valid groundwater right at the changed place of use can be met if some or all of the permitted amount of water is placed to beneficial use at a third location pursuant to a lease permit approved by state engineer.	Monitor; seek input from tribal attorneys

## Parks & Recreation

The month of February 2011 was somewhat uneventful as far as recreation programs were concerned because of the weather that caused us to close for 4 straight days. During our closure however, we had set up our gymnasium as an emergency shelter center for those who may have been out of heat or water due to frozen pipes. Although no one actually used the facility we did have plenty of staff and bottled water that was given to those people who had their pipes frozen at their homes. Also many people expressed gratitude that we were available to them for such an emergency. Vernon Abeita, Head of the Emergency Preparedness Program for the Pueblo of Isleta Mike Candelaria, Public Works Director, along with Lt. Governors Eddie Paul and Tony Chewiwi should be congratulated for taking swift and decisive action in preparing for such an emergency and insuring the safety of all our Pueblo residents. Also during February, former Lt. Governor Max Zuni took over the Little League Program for Vernon Abeita (who is busy this year with traditional activities) as they conducted registration for Little League sign ups. Anyone who is still interested in participating can contact Max Zuni at 604-5581.

### Spring Cleaning

With March 2011 approaching, the staff will begin doing lots of Spring-cleaning as we prepare for a busy summer program. Currently the swimming pool has been closed and drained as we begin to scrub and buff the walls and flooring of the pool to insure that it is kept in tiptop shape. Doing this type of maintenance at least once a year is a must if we are to protect the integrity of the pool. Also the Park Management staff is now beginning the fertilizing schedule of all of our parks and baseball fields and uplifting the watering schedule for the warmer weather that is to come. In addition, the Jose Lawrence Jojola/Celso Montoya Park in the Church Neighborhood is having all three wooden shade structures replaced with steel and metal structures. This will make them safer and comparable to the other parks in our park system. Pictured are staff members who are assisting with the scrubbing and cleaning of the pool. All work is done in house thus saving the Pueblo of Isleta thousands of dollars for general maintenance. Next to them is our park management staff preparing and fertilizing one of the parks as they prepare them for the growing season.

### Senior Olympics

The 2011 New Mexico Senior Olympics All Indian Game Day is right around the corner. The games are scheduled for Wednesday and Thursday, March 23rd and 24th, 2011. This is our last year of a 3-year commitment to hosting the games here at the Pueblo of Isleta. Registration deadline is March 7th. Next year the Mescalero Apaches in Ruidoso, New Mexico will host the games. For those of you who are at least 50 years and older may register to participate. If you are interested in volunteering to help no matter what age, we will be happy to have your assistance. Tribes from throughout New Mexico will be here for the games. Lunch on both days is being provided by the generous support of the Isleta Governor's Office. Lunch will be available at the New Rec. Center for all pre-registered paid athletes, volunteer staff and spectators with a lunch ticket. For those just wishing to come out and cheer on all of our athletes the games begin in earnest on Wednesday at 9:00 am with Opening Ceremonies in the gymnasium. Sporting Events include: Archery, Basketball Free Throw, Bowling, Frisbee Accuracy, Golf-9 holes, Huachas, Soccer Accuracy Kick, Softball Distance Throw, Track 100M Dash, Track 400M Est. Run/Walk, Track 800M Est. Run/Walk, Bowling Pins, Chair Exercise, Golf Putting, Pickleboard, Shuffleboard, Water Aerobics and a Talent Show. Come join our Elders and us for two days of fun filled events for them.

**Note: The New Rec. Center will be CLOSED for both days to the general public while we host these events.**

## After School Program

For those of you parents who are concerned about the children's whereabouts after school or what they may be doing while you parents are at work please feel free to send them to the New Rec. or Old Rec. for activities. We will also help children with homework prior to engaging in fun activities should they need assistance. For those involved in the after school program at Old Rec. at Pickle Heights, those children are picked up at our Elementary School and also taken home if needed. The children attending the program at the New Rec. Center and attending our Elementary School they are only picked up at the school but parents must pick them up at the New Rec. Center prior to 6:00 pm. Now that the weather is starting to warm up and kids begin practice for softball and Little League, please remember we are an Alcohol, Drugs and Smoke Free Zone. For those of you who wish to partake in that type of activity over at the Skate Park, you will be arrested if caught. We have installed a special camera to monitor that area of the park for anytime of the day, whether we are closed or not.

*Keionna Lujan is being assisted by Rec. Leader Marcelina (Feather) Anderson with her homework during the after-school program.*

## Summer Program

The summer program is right around the corner and we are already planning our summer activities. Right now as it stands and if the school system does not have to make up anymore lost school days, we are anticipating opening our summer program on Monday June 6, 2011 until Friday, July 29, 2011. The Summer Breakfast and Lunch Program for children ages 18 years and younger is scheduled to begin on Tuesday June 7th. We however will keep everyone posted should there be any changes to the schedule. For those young adults who are a Pueblo member and at least 16 years and older who are looking for a job, the Pueblo of Isleta Human Resources is now accepting applications until March 25, 2011. We will be hiring 16 people to assist us with the busy summer program. For more information, please contact the Human Resources Department at 869-3111. Applications must be turned in to them and not to the Rec. Center

*Derrick Jiron is leading the children who participate in the after-school Swim Program on strengthening exercises.*

## Pueblo of Isleta Public Library

Happy Spring Time, People of the Island! Let the Library be the first to wish you a Great Harvest Season this year and also let us remind you all to be careful with your yard cleansing fires. As for those whose allergies will be in full effect soon, it is said if you eat honey from your local bee keepers the honey will help your body build immunity with the local pollen. So, love your honey bees!

### NEWS

Those of you who submitted an Essay in hopes of being awarded a FREE Computer, be advised your essays are being reviewed at this very moment. All I can say at this time is Good Luck because there were a lot of essay entries making this opportunity very competitive. Winners will be notified middle or near the end of the month and will be posted in next month's Newsletter. Thank you for participating.

As mentioned in last month's Tribal Newsletter insert, the Newsletter will longer be mailed out after the March 2011 issue. From my understanding, Newsletters will have to be picked up from Newspaper racks located within the community such as: the Library, Department of Education, Elders Center, Recreation Centers, Health Center, Head Start, Governor's Office, Community Center, and Housing Department.

The library will also restart its Newsletter Email List Serve which has no monetary cost. However, the Newsletter will be in the form of a Compressed WinZip File which would have to be downloaded from the email and opened with Compressed WinZip. By compressing the Newsletter PDF, the size of the Newsletter would then be small enough to be accepted by email accounts like Gmail, Hotmail, Yahoo, AOL, Comcast, etc. To be added to the Newsletter Email List Serve, send your full name and email address to [poi02002@isletapueblo.com](mailto:poi02002@isletapueblo.com) or you can drop it off at the library and we will add you.

Another option to getting a digital copy of the Newsletter or older issues is by visiting the library's web site and clicking on the Digital Newsletter Archive Tab found on the last tab on the left of the page. The library's website address is [www.isletapueblo.com/library2.html](http://www.isletapueblo.com/library2.html).

During the week of March 14 – 18, the following Schools will be on Spring Break: Isleta Head Start & Child Care; Los Lunas Schools, Albuquerque Public Schools, Central New Mexico (CNM), and the University of New Mexico (UNM). With that said, the Library's Hours will remain the same except for one day which is Thursday, March 17 where we will Open late at 10 AM and Close early at 6:30PM. Just in case any of you are wondering about the Isleta Elementary's Spring Break, it is the week of April 25 -29.

Over the years, we here at the library have been pursuing a level of professionalism which would make your experience in the library as pleasant and informative as possible. I have sent my staff to numerous workshops, had them get certified as Librarians through the New Mexico State Library, and purchased Staff Shirts so patrons would know who to ask for help

when in the library. Our latest change to the library will involve our Patrons, in the form of requiring all Patrons to have their Library Cards on hand when borrowing library material. In the past, we have been lenient and checked out material to the patrons regardless if they had their card or not, but that must now come to an end. When we move into the new library, patrons will need their library cards for everything, therefore, we want to get all patrons into the routine of having their cards.

Last month, you were informed of the NEW Library/Education Complex and were shown a picture of the plot of land with the two of my library aides holding our library banner. Well, as some of you might have seen over the last couple of weeks, major progress has taken place. As progress continues on the complex, community members can expect heavier traffic and bigger vehicles in our neighborhood. Along with construction comes the color orange in safety vest, barrels, temporary fences, and signs for delays or detours. Speaking of detours, some of you might have experienced a three day (February 28 – March 2) detour on the streets of Star Place and Moon Light Drive. Those community members whom are friends of the Isleta Pueblo Public Library via Facebook were made aware of the three day road closure a week prior and reminded of the road closure the day of. So, for the most current up-to-date news concerning

the new library complex, detours, road closures, you might want to become a fan of the Isleta Pueblo Public Library.

Facebook has widely become popular over these past few years. More and more people, as well as businesses, sign up for their own account. We know many of our own community members have an account themselves, so we decided to create a Facebook Page of our own. In doing this, we hope to better communicate with our patrons.

We will be using this page to give updates about both the Library and the tribe. You will be able to see information of past, current, and upcoming programs. You will be able to provide us with feedback and request new material on this page. In order to get these updates, all you have to do is search for "Isleta Pueblo Public Library" in the search box and click "like". After that you will be able to see our updates on your newsfeed. One incentive to get people to use this page is that we will be giving away prizes through Facebook only. So, we hope to see you on our fan page.

### UPCOMING

For the month of March, we will be having March Movie Madness. The library will be taking 20 lucky students to the movies at Century Rio 24 and dinner at Furr's Buffet.

*Students doing Homework for the Tracks Homework/Reading Incentive Program.*

They will have a choice to see *Diary of a Wimpy Kid 2: Rodrick Rules* or *Rango*. To go, all the student has to do is come in and do homework or read for 20 minutes to get points. As soon as they have 31 points they will be able to go on this trip. They will be able to start receiving points Monday, February 28th and have until Thursday, March 24th.

We will be kicking off the NEXT incentive on April 4th. For this trip we will be taking students to the Albuquerque Little Theatre to watch the play "Sleeping Beauty" and "Robin Hood". Students will earn their points by doing homework and reading until they reach 23 points. They will have until Thursday, April 27th to do so. Our fieldtrip will be on Saturday, April 30th.

On April 7th, we will honor the upcoming Earth Day, which is on Friday, April 22nd. We will provide supplies needed such as planters, soil, seeds, etc., to take your seedlings home on Earth Day. So bring your green thumbs and join us for this event.

On April 19th, we will have a special visit from Peter Cottontail. We are scheduled to take pictures with the Easter Bunny on Tuesday from 2:30 – 6:30p.m. Pictures will be available for pick up Friday after 12pm. Please remember that these pictures are free and you receive two 3x5's.

Please join us on Wednesday and Thursday evening, of the 20th and 21st of April, for Easter activities. We will have some fun arts and crafts set up for everyone to do. The fun begins at 4:30pm. Each day is a different craft and you will be able to take your creations home with you.

#### RECAP

We want to say thank you to everyone who purchased a Valentine's Candy Gram from us. We hope all of you who received one, enjoyed it.

Our "Tracks" fieldtrip was not only fun, but educational as well. The children enjoyed going to both the DynaMax Theatre and the Planetarium. We explored the museum for an hour and the kids had fun.

Dr. Suess' Birthday Bash was a hit. Those who came enjoyed our festive activities in honor of Dr. Suess, and The Cat in the Hat made a special appearance himself. Those students who stayed the entire duration of the festival received a gift bag full of goodies and their very own Dr. Suess book! We had fun and hope to have another party next year. "Thank You" to all of you who participated in our activities and programs. We appreciate you visiting our library. You are always welcome here.

*Students playing Super Smash Bros. on the Wii after they finished their Homework.*

## The Isleta Pueblo Public Library is now on Facebook!

facebook

Your local Library has set up a Page on Facebook and is now available for Facebook users. The staff here wanted a new way of better communicating and keeping in touch with the community and all of its members. Many of our reasons are as follows:

- **Latest News**
  - You will see both Community and Library updates such as early closures
- **Programs/ Events**
  - You will be aware of upcoming programs and events that will be occurring at the Library
- **Prizes**
  - On special occasions, our Page will feature special prizes and contests to our "friends"
- **Library Information**
  - Our basic information will be available for you to view i.e. hours, contact info
- **Library Material Request/ Input**
  - You can use our page to request new library material: movies, CDs, books
- **Program Request**
  - Request any new programs or any programs that you would like to see again

To become our friend and have our information available to you all you have to do is search "Isleta Pueblo Public Library" in the text box, then click on "like" button to become and fan. After that our updates will start showing up on your wall.

**Starting Monday, February 28th come in to start earning points for free dinner and a movie.**

**Points will be earned by doing homework or reading for 20 minutes. The first 20 students to earn ALL 31 points by Thursday, March 24th will be permitted to go on this field trip. Once eligible, each student will decide which movie they would want to attend, either**

**Rango or Diary of a Wimpy Kid 2.**

**Afterwards, the Library will treat each student to dinner at Furr's Buffet.**

**The field trip will be on Friday, March 25th.**

**For further details or more information, please come in or call the Library at 869-8119.**

### Cacique (Ranchitos) Ditch Announcement

There will be Ditch Work for the Cacique (Ranchitos) Ditch on March 12th at 8:00 am. The ditch work will begin at the end by the Otero lateral ditch. There is a lot of work that needs to be done. We do not know every member's residency and therefore we have placed this notice in this Newsletter. Every effort will be made to notify members and we will also deliver Flyers. There will be a ditch meeting at the conclusion of the ditch work on this day. The Cacique Mayordomos met with the Tribal Officials and Natural Resources to address previous ditch problems and we will update you on any progress that has been made to the issues we presented. There will be a fee of \$25.00 for no-show members for ditch work on this day.

NOTE — The assessment fee is \$5.00 for "all members". There is a large amount of fees and/or assessments that are owed which total over \$11,000. The Treasurer, Mr. Richard Lucero (Cougar) will be present to collect any monies due on this day. If you believe you have an outstanding balance, please feel free to contact Mr. Lucero at 553-0905.

Please feel free to contact us if you have any questions. Thank you.

Mayordomos Kenneth Jojola at 859-9065 or Michael Lucero at 818-3027.

*The more people we have to help, the easier and faster it will be for the few that are present.*

### Natural Resource Department

Greetings Everyone! The Natural Resource Department is in the process of commencing replacement and rehabilitation services to irrigation ditch systems within the reservation. Areas of services will be in the Acequia Madre, Middle/Lower Chical, and Ranchitos area. It is anticipated that work will begin early March and run through mid-April (start of irrigation season). Please be advised that some services will continue throughout the irrigation season. We ask the community to be careful around these areas while service is being performed.

TRAFFIC DIVISION NEWS

Isleta Police Department Traffic Division is asking everyone to **WATCH YOUR SPEEDS!**

Over the past month random speed surveys have been taken and the results indicate that drivers are failing to observe the posted speed limits throughout the Pueblo. Some of the results may surprise you.

The random speed surveys were taken on State Road 47, State Road 314, Interstate 25 and Tribal Road 40 (Post Office/ Governor’s Office) and following are those results:

Some question the importance of the Traffic Division’s efforts in speed enforcement. The most significant is to reduce and prevent crashes. Keep in mind the higher the speed the greater the severity and potentiality for fatalities and so speed is relative. Many people believe they are “great drivers” and can handle their vehicle at any speed and feel they should not be penalized. Too often, they soon learn they are unable to control their vehicle at high speeds and the end result is none too pleasant and the Traffic Division is called upon to investigate a great bodily injury crash or fatality. The Division prefers issuing citations to violators in hopes they will adhere to speed limits posted and educate the motoring public on the role speed plays in crashes.

Traffic Division officers will be enforcing speed limits throughout the Pueblo (tribal roads, residential areas, school zones, interstate highway, and main thoroughfares) issuing citations to violators. Keep in mind and be aware of the officially posted construction zone on State Road 314 at the bridge, both north and south. The penalty assessments are doubled if you are cited in this zone.

**Pueblo of Isleta - Elder Center  
Legacy Corp Program**

In 2006 the Isleta Elder Center saw a need to provide services to help elders remain in their own homes as long as possible by the center providing assistance to the family. The University of Maryland, Legacy Corps Project was just what the center was looking for.

The Elder Center applied for a grant and was approved to start the program with 25 members. Our Legacy members provide the following types of services to our elders:

- Insure a safe environment in such a way that the primary caregiver can enjoy some personal time
- They have been able to engage their clients in friendly and stimulating conversation and companionship (mostly in our native language)
- They are ready to fill the gap in care when the primary caregiver is not available
- They provide light housekeeping, prepare meals, laundering etc.

In 2008, the program was granted another 5 members, taking the total to 30 members. In 2009 the program was granted another five members, and again in 2010 the program was granted another five members, bringing the Isleta Legacy Corps current membership to a total of 40. With this increase in 2010 the members served approximately 58 elders a minimum of 10 hours per week for a small stipend.

We have been blessed to have members that are caring, compassionate and loyal. They treat each client with respect and honor. We are happy to report that we have reached our goal in recruiting the full 40 member slots for 2011 with 18 returning and the rest being new members. If you have any questions about our program please contact Terry Salazar, Manager or Shirley Zuni, Assistant at (505) 869-6661.

**Coming soon at Isleta Behavioral Health:**

Stress Management Group Thursdays 4-5:30pm  
Starting in mid-March.

Call Emily Stafford at 869-5475 for more info and starting date.

If you can answer "yes" to one or more of these questions, this group may be for you:

- People and situations bugging you?
- Getting angry and upset more often than you'd like?
- Laying awake going over and over things in your mind?
- Feeling tense and nervous and can't relax?
- Snapping at friend/family members?
- Feeling "stuck" and not sure how to deal with certain issues in your life?
- Sometimes overdoing things as a result of stress? (like drinking, eating, shopping, gambling, etc.)

These are just some of the things the group will discuss and learn new ways of dealing with.

So .... bring your concerns AND your sense of humor and "come on down." We promise to have some fun and a few laughs along the way, as well. Come join us!

## Johnson-O'Malley Program

Hello J.O.M Families!

Another month has flown by and now we are already in the 3rd month of the New Year! Even though it seems like the days went quickly, here at the Johnson-O'Malley Program we have made good use of the time. Let us share with you now what has kept us on our toes recently, and what will be keeping us busy in the upcoming months!

The J.O.M Program has spent the last few weeks looking over the program budget. Currently, the budget for CY 2011 is still being approved by the BIE, however, there are funds remaining from CY 2010. Budget modification is in the works as we speak.

We have planned many activities for students and parents using the remaining funds from last year. The first of these activities is taking place on **March 2nd, 2011 from 5:00pm to 8:00pm**. The J.O.M Program will be throwing a birthday party for Dr. Seuss at the Tutoring Building! We figured what better way to celebrate Dr. Seuss' Birthday than with a Literacy Night? For those of you who have attended our Literacy Nights before, you know what to expect. If you haven't managed to join us yet, I highly recommend that you stop by to check it out. We will be having cake, arts and crafts, Dr. Seuss movies, and of course, books! Each J.O.M eligible student can pick out a book of their choice from our large selection to take home with them and keep forever and ever. This activity is for all grades from pre-K to 12th.

An event that we'd like to notify parents and students about is the Los Lunas Career Fair. The fair will be held at the Los Lunas High School on **March 9th, 2011**.

Geraldine and I (Bernadette) will be heading to the "Save the Children, Save the Teenager" conference on **March 21-22nd, 2011**. I'm sure we'll return with many new ideas to share with everyone. During our absence Beverly will still be here holding down the fort and can help you with anything you might need.

Do you like Pizza? Do you like Puzzles? Well if you answered YES to either one, then this activity is for you! **On March 24th, 2011 from 5:00pm to 8:00pm**, the J.O.M Program is having a Pizza & Puzzle Night for students and parents. There will be pizza, puzzles and door prizes given away throughout the evening and even some little puzzles to take home with ya!

On **March 26, 2011** the J.O.M Program is taking students in 7th to 12th grade on a day field trip to the Indian Pueblo Cultural Center. Space is limited for this field trip and those interested are encouraged to sign your student up as soon as possible.

The Pueblo of Isleta J.O.M Program has been communicating with the J.O.M Program at Ysleta Del Sur and has set up a TENTATIVE field trip to visit with them. If everything falls into place like we are hoping, we will be taking a group of high school juniors and seniors down to Ysleta

Del Sur the weekend of April 1st-4th. This trip corresponds with the Ysleta Del Sur J.O.M's College Career Fair and offers students a chance to visit with colleges located in TX and surrounding areas. If you are interested in learning more about this trip, please give us a call.

At this time, the J.O.M Program is not offering reimbursements for cap and gowns. The program does however, still offer reimbursements for lab fees and SAT/ACT testing fees.

Also, if you have been searching for Beverly or Geraldine and have not been able to find them, fear not! They are not missing...they have been spending their days with me here in the Tutoring Building. The heating system is down in the J.O.M Office and it is very hard to concentrate when your fingers, toes, ears, and noses are frozen. So, if you need to locate either one of them for any reason, please feel free to drop by the Tutoring Building to see them. The Tutoring Building is located outside the Old Elementary School to the south near the road and playground (#630).

Last, and certainly not least, a quick update on Tutoring. Hopefully many of you

received my email regarding the changes in the tutoring schedule. If you did not, please note that tutoring is no longer offered Monday thru Thursday. Currently, Tutoring is offered on Mondays, Wednesdays, and Saturdays. Though the days have changed slightly, there are still a few things that have remained the same. Tutoring is offered to students twice a week, is still an hour long, must be registered for, and there is still limited space. Tutoring also remains by appointment only. By appointment only simply means that a student must sign up for 12 sessions/6 weeks. If you have a student who could benefit from tutoring services, or you have questions on the specific times tutoring is offered, give me a call (924-3189)!

Whew! Well, that is pretty much it for the month of March. Like I said, if you have any questions regarding upcoming activities, field trips, events, eligibility, tutoring, or any other services provided by the J.O.M Program, please do not hesitate to give us a call or stop by and meet with us. We love visitors! Hope to see you all soon! Have a great March!

- Geraldine, Beverly, & Bernadette

Think your exposure to secondhand smoke  
doesn't put you at risk?  
Think again!

Stephanie Barela  
Isleta Health Center, Health Educator

*Even just a small amount of secondhand smoke can put you more  
at risk for getting lung disease (Cancer).*

Researchers from American Journal of Respiratory and Critical Care Medicine did a study on the genes in cells from people's airways and found that breathing even a little cigarette smoke can affect the genes, which in turn can result in Lung Disease (Cancer). The scientists examined genes from heavy smokers and those who were exposed to only a little smoke. They saw the same type of changes in both, although the amount was less in people who breathed less smoke.

This is a warning for light smokers or people who  
breathe secondhand smoke:

"Don't think that it's not affecting you. Your lung cells know it. They are behaving abnormally. And for some individuals who are at risk, they are more susceptible for developing lung disease", warns researcher Ronald Crystal.

## WIC NOTES

### *March is National Nutrition Month*

For many parents, helping children develop healthy eating habits is a struggle. With the hectic pace of many families' lives and with more women working full time, even health-conscious parents are finding it easy to tolerate less than desirable eating habits.

A lot of parents don't want to struggle with the issues so they give up, letting kids make their own choices, but children's judgment is less mature and they still depend on parents to guide them.

It is best to start training children about foods as soon as they can talk since they are most influenced by their families during the preschool years.

Parents should carefully read food labels to check nutrients and ingredients. Most kids are attracted to the advertising and packaging of food, including highly sugared cereals. It's best to offer these cereals occasionally as a treat. A child's overall diet should be focused on low sugar, low fat, and unprocessed foods. Completely denying children sugar will only make it more tempting.

Involve your children in the food preparation process.

For example, teach children how to set the table during their preschool years. Take them grocery shopping. Let them choose some fruits and vegetables as well as the occasional treats. Involve them in preparing meals.

Developing children's attitude toward food should be similar to teaching them how to handle money. They need to learn responsibility. If children are properly prepared, they are more likely to make healthy food choices once they enter school. They will probably experiment some, but they will have a preference for fresh

foods like fruits and vegetables along with foods like french fries. If they learn to eat a well-balanced diet, they won't need vitamin supplements, she says.

What about changing the diet of children who have already fallen into the junk food habit? Once children reach age 10 or 12, it is more difficult to change their habits. You may want to call a family meeting to discuss ways to eliminate most (not all) junk foods and substitute more nutritious foods. This way your child is involved in making family decisions.

Developing a child's taste for nutritious foods will pay off

later in life. They may change when they reach teenage years. Teenagers like to experiment with everything, including risky food behavior. They might prefer more highly processed foods, but once they become older and more independent they are likely to return to the healthy habits they had growing up.

If we can be of help to you by offering advice in this area, please do not hesitate to contact the WIC office, 924-3180.

Heidi Lanes  
WIC Nutrition Coordinator

### Fish oil and Alzheimer's

Stephanie Barela,  
Isleta Health  
Center Health Educator  
869-4479

If you are concerned about developing Alzheimer's, then studies have shown that you may want to eat more fish oil. Studies have shown that people who ate DHA, which is one fatty acid in fish oil, had a lower risk of Alzheimer's, but another study shows that DHA does not lower people's risk if they already have Alzheimer's.
